1. **What brought you to see Dr. Matt?**

I was in a bad car wreck and was in a lot of pain from a neck injury. I found out it was whiplash and other injuries along with a sprained left ankle, wrist and back pain. I also had severe headaches every day.

2. **What treatment did you receive?**

Adjustments, Therapy, Rehap, and massages

3. **How did Chiropractic help you?**

It helped me tremendously, my headaches are gone. I'm in no pain. Still need adjustments to stay on target, but am pain free.

4. **Comments:**

Couldn't ask for better care from anyone!
